

# Older Scout Cot Surfing at Flintlock Adventure Base

Older Scout Cot Surfing is a fantastic program for older Scouts. In this program Scouts will participate in an overnight program every night. Whether it be a tried and true location such as the Huckfinn rafts or the Treehouses, or a more remote location such as the Yurt or Back of the Moon Adirondacks, your older Scouts will be able to see many of the different accommodations our camp has to offer. In addition to this, they will also be able to participate in any activities offered at the locations they choose to stay at such as Spar Pole Climbing at the Treehouse or Blacksmithing at Frontier. The best part? Youth in this program can participate in morning advancement time and will have ample opportunity to provide leadership to the younger Scouts in their troop.
